VISION and MISSION of EEE DEPARTMENT

VISION

The department envisions that the students of the branch becomes engineers of professional character equipped with a strong theoretical foundation required for critical thinking, practical engineering skills to face the challenges in the field, the ability to work in a team dignity, and all the qualities that help them accomplish their aims and objectives.

MISSION

The Electrical and Electronics Engineering Department is committed to provide opportunities for all students to become active life-long learners with the necessary competencies, skills, understanding, and good values, able to contribute and succeed in a rapidly changing world. It aims to do this by enhancing learning and teaching capabilities through its highly qualified committed faculty, constantly contributing for the best performance and ensuring a good working environment for imparting better quality technical education.
