REPORT OF THE EVENT

**EVENT NAME: A TWO DAY WORKSHOP ON INTERNET OF THINGS & ITS
APPLICATIONS**

DATE: 01/02/2023-02/02/2023

**RESOURCE PERSON DETAILS: Mr.B.S.Saireddy, Developer from
Mindtree,Hyderabad**

Department of computer science and engineering, KITS, Markapur has organized a WORKSHOP ON INTERNET OF THINGS & ITS APPLICATIONS for CSE final Year students on 1/02/2023 TO 2/02/2023 at Charles barbbage seminar hall. Mr.B.S.Saireddy Mindtree,Hyderabad was the resource person and Mr.E.Rajesh acted as a coordinator for this event.

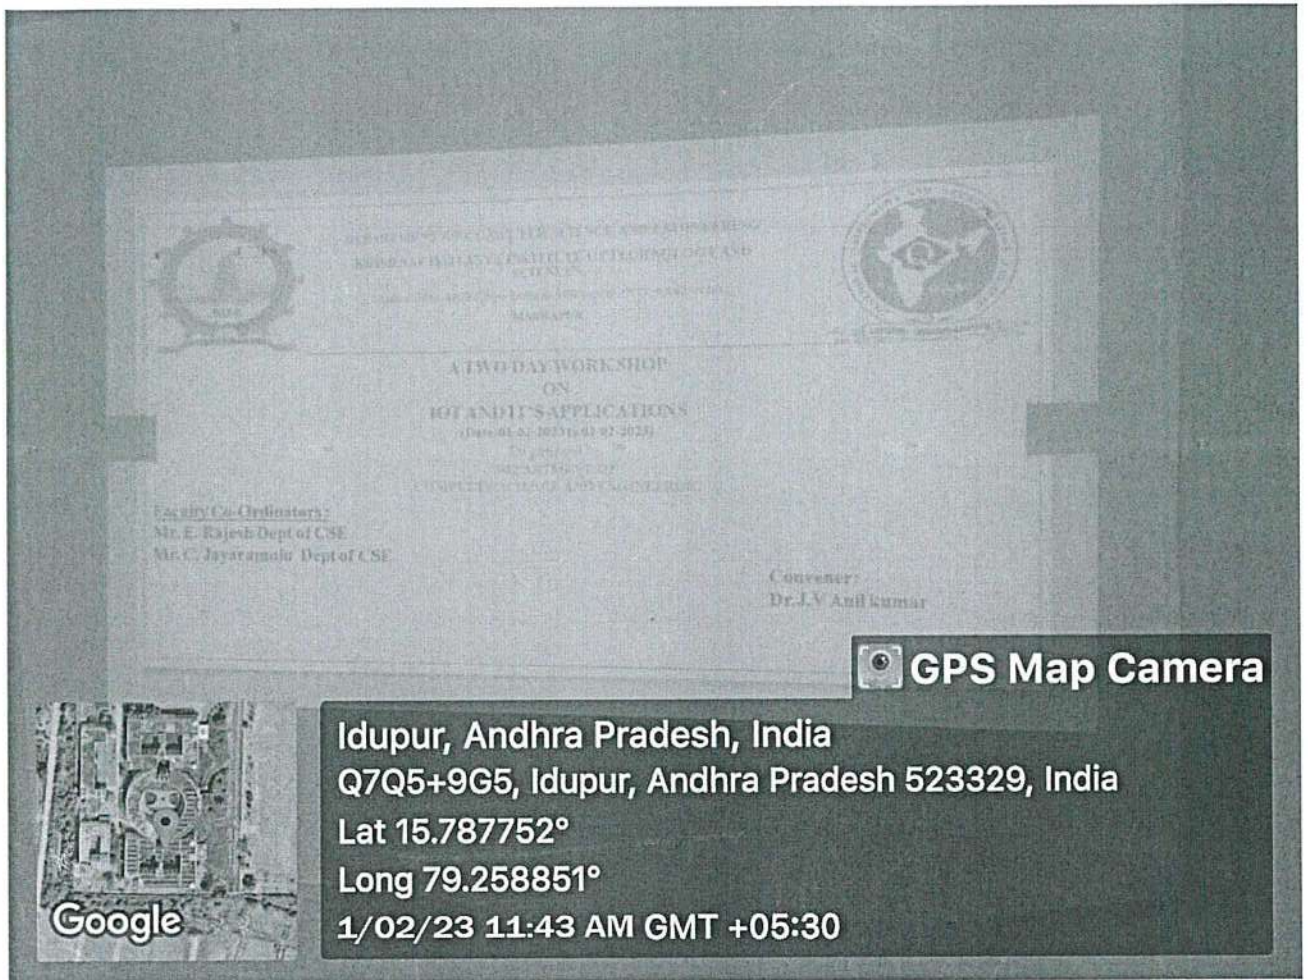

During the lecture, Mr.B.S.Saireddy Mindtree,Hyderabad spoke about The Internet of Things, or IoT, refers to the billions of physical devices around the world that are now connected to the internet, all collecting and sharing data. Thanks to the arrival of super-cheap computer chips and the ubiquity of wireless networks, it's possible to turn anything, from something as small as a pill to something as big as an aeroplane, into a part of the IoT. Connecting up all these different objects and adding sensors to them adds a level of digital intelligence to devices that would be otherwise dumb, enabling them to communicate real-time data without involving a human being. The Internet of Things is making the fabric of the world around us more smarter and more responsive, merging the digital and physical universes

Earlier, Mr.E.Rajesh, coordinator for this program welcomed the guest speaker and introduced him to the audience. Head of the department of CSE, Dr.J.V.Anil Kumar thanked the speaker for sparing his valuable time to educate the budding engineers.
