INTERNATIONAL CONFERENCE ON

Multidisciplinary Perspectives in Engineering & Technology

(24th & 25th May 2019)

Date: 10-03-2019

To
The Principal / HOD,

Dear Sir/Madam

Sub: International Conference on Multidisciplinary Perspectives in
Engineering & Technology - announcement- Requested

We are pleased to inform you that KRISHNACHAITANYA INSTITUTE OF TECHNOLOGY & SCIENCES is organizing a International Conference on Multidisciplinary Perspectives in Engineering & Technology on 24-05-2019 & 25-05-2019. The details of conference are furnished in the enclosed poster.

We earnestly request you to give wide publicity among the students by displaying the poster enclosed. I further request you to encourage your students to participate in this conference.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,
Convener

About Conference

ICMPET - 2019 is being organized by Krishna Chaitanya Institute of Technology & Sciences and Institute For Engineering Research and Publication (IFERP). To provide an opportunity to research scholars, delegates and students to interact and share their experience and knowledge in technology application. The aim of the Conference is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field. Our main objective is to promote scientific and educational activities towards the advancement of common man's life by improving the theory and practice of various disciplines and sectors of Research Challenges in Science.

Dear Sir/Madam

Sub: Regarding Six Days Workshop –Announcement

Its is our pleasure to announce that the Department of Electrical & Electronics Engineering, Krishna Chaitanya Institute Of Technology & Sciences, Devarajugattu, Peddaraveedu (Mdl), Prakasam (dt), A.P., is conducting a Six day workshop on Industrial Automation with PLC in association with Andhra Pradesh state skill development corporation, A.P. from 27-08-2018 to 01-09-2018. We are pleased to invite students to participate in this workshop for exchange of knowledge and skills related to industrial automation.

Kindly find a copy of the programme brochure attached along with this letter for more details. We request you to kindly arrange for a wide circulation of the information among the students for their active participation.

Thanking you for your kind co-operation and looking forward to participate more from your college. For Any further information and details contact coordinator.

Thanking you,

Yours truly,

(Prof. Y. V. Bala Rama Krishna Rao).

Devarajugattu (Village) Peddaraveedu (Mdl),
Prakasam Dt, Prakasam Dist. - 523 320.

ABOUT THE COLLEGE

Krishnachaitanya Institute of Technology & Sciences was established in 2008 by Anna Educational Society in Devarajugattu, Peddaraveedu(Mdl), Prakasam Dist. It is approved by AICTE, New Delhi and affiliated to JNTU, Kakinada. The institute is NAAC accredited. This Institute is offering Five B.Tech courses in EEE, ECE, CSE, ME & CE with a total intake of 420.

ABOUT THE DEPARTMENT

The department of Electrical and Electronics Engineering was established right from the inception of the college with an annual intake of 60 students. The department has well equipped laboratories, highly qualified, experienced and dedicated faculty to full fill aspirations of students and provides excellent facilities for learning. The objective of department is to create quality Electrical and Electronics Engineers with academic excellence, positive attitude, effective communication and self confidence.

ABOUT THE PROGRAMME

The main objective of this workshop is to make aspiring engineers acquainted with conceptual as well as practical knowledge of the automation and latest technologies being used to achieve industrial automation. The idea of organizing this programme is to inculcate the basic fundamentals of automation among students to provide them a platform to work on, in near future. .

RESOURCE PERSONS

Experts from APSSDC, Andhra Pradesh will act as resource persons

TOPICS TO BE COVERED

Day 1:

Introduction to PLC, Introduction to PLC Programming types , Introduction about Ladder logic diagram, NO & NC switch based concept, Latching and memory concepts.

Day 2:

Application problems based on NO & NC. Application problems based on Memory coils. Push button concepts. Introduction to Timers and Timer based Problems.

Day3:

Application problems based on Timers, NO & NC combination. Sensor based problems. Introduction to Counters, Counter based problems, Set & Reset, Positive & Negative Pulses.

Day 4:

Introduction to Delta CPU's Description of output types-Relay output, Transistor output, Basic programming part and description of wiring types (source-sink ,sink-source, source-source, sink-sink), All problems based on toggle switch what we covered in phase-1. Introduction to Set, Reset, Falling edge, Rising edge, Inc, Dec instructions.

Day5:

Introduction to push buttons and memory coil concepts and programming on some problems what we covered in phase-1, Timers concept and problems based on timers, Introduction to 8-channel relay modules and contactors. Problems based on relay, contactors. Introduction to Proximity sensors both capacitive and inductive.

Day 6:

Projects :Stair-case ,Traffic light, Car parking , Star-Delta starter, Series- Parallel operation, Sequential problems

ELIGIBILITY

This workshop is open to all B.Tech and M.Tech students of Electrical and Electronics and allied areas of Engineering branches approved by AICTE and professionals from R&D Organizations.

REGISTRATION PARTICULARS

Applications in the prescribed format duly signed by the Head of the institution should reach the convener on or before 20/08/2018. The soft copy of application (scanned copy) can also be sent to the convener.

*spot registration is also allowed.

REGISTRATION FEE

For each participant-Rs.500.

IMPORTANT DATES

Last date of receiving applications for participation: 20/08/2018.

ACCOMMODATION

Accommodation will be provided to the external participants on payment basis with prior request.

THE HOD,
EEE Department.

Dear Sir/Madam

Sub: Regarding two Days Workshop –Announcement /

It's our pleasure to announce that the Department of Electrical & Electronics Engineering, **Krishna Chaitanya Institute Of Technology & Sciences, Devarajugattu, Peddaraveedu (Mdl), Prakasam (dt), A.P.**, is conducting a two day national level workshop on **MATLAB SIMULINK** from 13-02-2019 & 14-02-2019. The poster highlighting the salient features of the WorkShop is enclosed here with. We are pleased to invite students to participate in this workshop for exchange of knowledge and skills related to "MATLAB".

Kindly find a copy of the programme brochure attached along with this letter for more details. We request you to kindly arrange for a wide circulation of the information among the students for their active participation.

Thanking you for your kind co-operation and looking forward to participate more from your college. For Any further information and details contact coordinator.

Thanking you,

Yours truly,

(Approved by A.I.C.T.E., New Delhi, & Affiliated
to JNTUK, Kakimada, NAAC ACCREDITED)

Devarajugattu (P.O), Peddaraiveedu (Mdl),
Prakasam Dist. - 523 320.

ABOUT THE COLLEGE

Krishnachaitanya Institute of Technology & Sciences was established in 2008 by Anna Educational Society in Devarajugattu, Peddaraveedu (Mdl), Prakasam Dist. It is approved by AICTE, New Delhi and affiliated to JNTU, Kakinada. The institute is NAAC accredited. This Institute is offering Five B.Tech courses in EEE, ECE, CSE, ME & CE with a total intake of 420.

ABOUT THE DEPARTMENT

The department of Electrical and Electronics Engineering was established right from the inception of the college with an annual intake of 60 students. The department has well equipped laboratories, highly qualified, experienced and dedicated faculty to full fill aspirations of students and provides excellent facilities for learning. The objective of department is to create quality Electrical and Electronics Engineers with academic excellence, positive attitude, effective communication and self confidence.

ABOUT THE PROGRAMME

The goal of this programme is to provide a common platform for the exchange of ideas for mutual benefits. MATLAB is a multi-paradigm numerical computing environment and proprietary programming language developed by math works. Matlab allows matrix manipulations, plotting of functions and data, implementation of algorithms, creation of user interfaces, and interfacing with programs written in other languages including C++, JAVA, FORTRAN and PYTHON. New methods and innovations in higher. So that the

Participants can in turn develop their own innovation methods of instruction & interact with people working in the field.

TOPICS TO BE COVERED

Day 1:

SESSION 1:

1. Introduction to the MATLAB Software.
2. MATLAB Working And Comparison between the Other Design Tools and MATLAB Software.
3. Introductions on the Electrical Sources, Elements, Power Electronic Elements, Machines in MATLAB Software.

SESSION 2:

4. The Conceptual Implantation in MATLAB and Network Theory Applications in MATLAB
5. Introduction To The Modeling Electrical Machines And It's Application.

Day 2:

SESSION 1:

6. Design On The Different Switches Used In Power Electronic Circuit Configuration.
7. Application of All Controlled and Uncontrolled Switches.
8. Various Control Methods Of Power Electronic Circuits.

SESSION 2:

9. IEEE Project on Power Quality.
10. IEEE Project on Grid Power System and Power Electronics.

ELIGIBILITY

This workshop is open to all B.Tech and M.Tech students of Electrical and Electronics and allied areas of Engineering branches approved by AICTE and professionals from R&D Organizations.

REGISTRATION PARTICULARS

Applications in the prescribed format duly signed by the Head of the institution should reach the convener on or before 10/02/2019. The soft copy of application (scanned copy) can also be sent to the convener. *spot registration is also allowed.

REGISTRATION FEE

Registration fee for B.Tech student-200/- (per student) Registration fee for M.Tech student-300/- (per student)

IMPORTANT DATES

Last date of receiving applications for participation: 10/02/2019

ACCOMMODATION

Accommodation will be provided to the external participants on payment basis with prior request.

ABOUT THE COLLEGE

Krishna Chaitanya institute Of Technology and sciences, Markapur, founded by Sri Anna Venkata Rambabu, Ex. M.L.A of Giddalur Constituency under the name and Style of Anna educational Society. Sri Rambabu is a social worker and devoted his life for serving public. He, who got the title "JALADATA" for his renowned service and he was given an award "PRATIBHA PURASKAR" and won the Lawrence of the people. Sri Anna Krishna Chaitanya, Secretary & Correspondent is an Ideological, young and dynamic personality with updated administrative and technological views.

Krishna Chaitanya institute Of Technology and sciences, Markapur, is established in 2008 in pollution free hygienic, serene, lush green environment and meadows in an area of 36 acres of land and just 6 km from Markapur. This institute is offering Five B.tech courses i.e., Civil, CSE, ECE, EEE& ME with a total intake of 420.

Dr. V. Krishna Reddy, principal of this institute is a person of academic excellence with a vast experience in technical education and administration. He has published several technical papers in national and international journals and won academic awards.

ABOUT the department

The department of Mechanical engineering was established in the year of 2010 with an annual intake of 60 students. The department has well qualified, committed and dedicated faculty members and has well equipped, sophisticated, precise and state of art laboratories are centre of attraction.

ABOUT THE PROGRAMME

- AutoCAD is a computer-aided drafting software program used to create blueprints for buildings, bridges, and computer chips, among other things.
 - From Architects, Designers to Engineers and everyone who are into creating designs will be in need of a design tool that would make their work easy.
 - Gone are the days where designers used paper to draft their designs, with the advent of complex structures and designs, it became extremely difficult to use paper to visualize their ideas.
 - AutoCAD 2D software provides an efficient solution for this, helping enthusiasts to visualize their ideas and give life to them.
 - With powerful functionalities, AutoCAD 2D enhances workflow and helps an individual create real-life maps, diagrams, structures and schematics. Learning this software application also enables people from one industry to portray complex concepts on paper in the form of drawings.
 - This workshop focuses from Basics concepts in the field of designing and increases the imagination power of the students in 2D designing.
 - It covers the topics of introduction of 3D design, drafting and dimensioning, presenting design sheet and in the final work of project.
- The workshop aims to provide adequate working to understand the various steps involved in the 2D/3D designing, drafting and planning techniques that involves within a construction project.

One day workshop on AUTODESK-AUTOCAD

Report

Name of the program : One day workshop on AUTODESK-AUTOCAD
Duration of the program : 21-2-2019
Resource person details : P.Kranthi kumar
Trainer,
ICT Academy
Mob no:9493934336
Mail id:kumarkranthi48@gmail.com

Department of the Mechanical Engineering had organized One day workshop on AUTODESK-AUTOCAD in association with ICT Academy on 21 february 2019.P.Kranthi kumar attended to this program as a resource person and gave valuable information about AUTODESK-AUTOCAD.Y.V Balarama krishna rao acted as a convener ,B.ajanta reddy and B.V.srinivasulu acted as a coordinators for this event.Total 45 students attended to this event. a The workshop aims to provide adequate working to understand the various steps involved in the 2D/3D designing, drafting and planning techniques that involves within a construction project. AutoCAD is a computer-aided drafting software program used to create blueprints for buildings, bridges, and computer chips, among other things. From Architects, Designers to Engineers and everyone who are into creating designs will be in need of a design tool that would make their work easy. Gone are the days where designers used paper to draft their designs, with the advent of complex structures and designs, it became extremely difficult to use paper to visualize their ideas. AutoCAD 2D software provides an efficient solution for this, helping enthusiasts to visualize their ideas and give life to them.

Dear sir,

Sub: KITS COLLEGE – ECE DEPARTMENT – MARKAPUR- Confirmation of
MATLAB & SIMULINK WORKSHOP dates - Reg.,

As per the earlier telephonic and mail conversation with you, we would like to confirm **MATLAB & SIMULINK Workshop dates on 11-09-2018 to 12-09-2018 (2 days)**. The minimum number of students we can assure is 60. Please provide us the two trainers, course materials and certificates to students. We will provide necessary lab/infrastructural facilities as per mentioned in the mail. Looking forward for your association.

Dear Sir,

Greetings from Cranes Varsity!

We will be available in your college premises on 11/09/2018 along with 2 trainers as discussed. The soft copy of the materials will be shared to you.

As we have discussed you can make 50% payment on the first day and the another half on the second day of the training.

Thank you for arranging the systems and the projector along with white board for the training. We will be happy to meet you in person.

Thanks & Regards,

To
The Principal/HOD,

Dear Sir/Madam

Sub: A Two-Day Work Shop on MATLAB & SIMULINK-
announcement- Requested

We are pleased to inform you that the Electronics & Communication Engineering department of **KRISHNA CHAITANYA INSTITUTE OF TECHNOLOGY & SCIENCES** is organizing a Two-Day National level Work Shop on **MATLAB & SIMULINK** on 11-09-2018 and 12-09-2018. The details of topics, rules and regulations are furnished in the enclosed brochure.

We earnestly request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this work shop.

Thanking you for your kind co-operation and looking forward to participate more from your college

Yours truly,

ABOUT THE COLLEGE

Krishnachaitanya Institute of Technology & Sciences, Markapur, founded by Sri Anna Venkata Rambabu, Ex-M. L.A. of Giddalur Constituency under the name and style of Anna Educational Society. Sri Rambabu is a social worker and devoted his life for serving the public. He, who got a title "JALADATA" for his renowned service and he was given an award "PRATIBHA PURASKAR" and won the Lawrence of the people. Sri Anna Krishna Chaitanya, Secretary & Correspondent is an Ideological, young and dynamic personality with updated administrative and technological views.

Krishnachaitanya Institute of Technology & Sciences, Markapur, is established in 2008 in pollution free, hygienic, serene, lush green environment and meadows in an area of 36 Acres of land just 6 km from Markapur. This Institute is offering five B.Tech courses (EEE, ECE, CSE, ME & CE) with a total intake of 420. The Institute as such is a monumental infrastructure which is architecturally designed and framed with updated facilities for the students. This Institute has got the appreciation from the Hon'ble former Chief Minister Sri K. Rosaiah garu for the infrastructure, equipment, results and discipline.

Dr. V. Krishna Reddy, Principal of this Institute is a person of academic excellence with vast experience in Technical Education and administration. He has published several Technical papers in National & International Journals and won academic awards.

ABOUT THE DEPARTMENT

The department of Electronics and Communications Engineering was established right from the inception of the college with an annual intake of 120 students in UG. The department has well qualified, committed and dedicated faculty members and has well equipped, sophisticated, precise and state of art laboratories are centre of attraction.

WORKSHOP HIGHLIGHTS

MATLAB, which stands for MATrix LABoratory, is a state-of-the-art mathematical software package, which is used extensively in both academia and industry. It is an interactive program for numerical computation and data visualization, which along with its programming capabilities provides a very useful tool for almost all areas of science and engineering. It has literally hundreds of built-in functions for a wide variety of computations and many toolboxes designed for specific research disciplines, including statistics, optimization, solution of partial differential equations, data analysis.

Simulink is a software package for modeling, simulating, and analyzing dynamic systems. It supports linear and nonlinear systems, modeled in continuous time, sampled time, or a hybrid of the two.

The purpose of this workshop is to familiarize the beginners to MATLAB & Simulink, by introducing the basic features and commands of the program.

Eligibility:

The program is open to III and IV year students of ECE department of AICTE approved engineering colleges and professionals from R&D organizations.

Registration fee: Rs. 700/-

Registration Process: Registration forms duly filled in the prescribed format should reach the Coordinator on or before 10th September, 2018. Fee will be paid at the time of registration on the 1st day of workshop.

A Two day national level workshop on MATLAB&SIMULINK

Report

Name of the program : A Two day national level workshop on
MATLAB&SIMULINK

Duration of the program : 11/9/2018-12/9/2018

Department of the Electronics and communication engineering had organized A two day national level Workshop on Matlab Simulink on 11 and 12 september 2018. Total 63 students participated to this event. Dr. P. prasanna murali krishna acted as a convener to this event. Mr. s. velugonda reddy and v. siva sankar reddy acted as coordinators to this event. The goal of this programme is to provide a common platform for the exchange of ideas for mutual benefits and to familiarize the beginners to MATLAB & SIMULINK by introducing the features and commands of the MATLAB. MATLAB is a multi paradigm numerical computing environment and proprietary programming language developed by mathworks. MATLAB allows matrix multiplications, plotting of functions and data, Implementation of algorithms, creation of user interfaces and new method and innovations. So that the participants can develop their own innovation methods of instruction and interact with the people working in the same field. Resource person conducted a very informative session for the students on MATLAB and simulink.

ABOUT THE PROGRAMME

- AutoCAD is a computer-aided drafting software program used to create blueprints for buildings, bridges, and computer chips, among other things.
- From Architects, Designers to Engineers and everyone who are into creating designs will be in need of a design tool that would make their work easy.
- Gone are the days where designers used paper to draft their designs, with the advent of complex structures and designs, it became extremely difficult to use paper to visualize their ideas.
- AutoCAD 2D software provides an efficient solution for this, helping enthusiasts to visualize their ideas and give life to them.
- With powerful functionalities, AutoCAD 2D enhances workflow and helps an individual create real-life maps, diagrams, structures and schematics. Learning this software application also enables people from one industry to portray complex concepts on paper in the form of drawings.
- This workshop focuses from Basics concepts in the field of designing and increases the imagination power of the students in 2-d designing.
- It covers introduction of designing, 2-d design, drafting and dimensioning, presenting design sheet and in the final work of project.

The workshop aims to provide adequate working to understand the various steps involved in the 2D designing, drafting and planning techniques that involves within a construction project.

Department of the civil Engineering had organized One day workshop on AUTODESK-AUTOCAD in association with ICT Academy on 22 february 2019. Mr.P.kranthi kumar attendee to this event as a resource person and conducted very informative session to students.Total 53 students attended to this event.Mr.Y.V.Balarama krishna rao acted as a convener and B.Ajanta reddy and B.V.Srinivasulu were acted as a coordinators.The workshop aims to provide adequate working to understand the various steps involved in the 2D/3D designing, drafting and planning techniques that involves within a construction project. AutoCAD is a computer-aided drafting software program used to create blueprints for buildings, bridges, and computer chips, among other things. From Architects, Designers to Engineers and everyone who are into creating designs will be in need of a design tool that would make their work easy. Gone are the days where designers used paper to draft their designs, with the advent of complex structures and designs, it became extremely difficult to use paper to visualize their ideas. AutoCAD 2D software provides an efficient solution for this, helping enthusiasts to visualize their ideas and give life to them. With powerful functionalities, AutoCAD 2D enhances workflow and helps an individual create real-life maps, diagrams, structures and schematics. Learning this software application also enables people from one industry to portray complex concepts on paper in the form of drawings.

NI LABVIEW WORKSHOP (November 28-30th, 2018)

Day 1:

Morning session

Content

- LabVIEW Introduction
- Getting started with LabVIEW
- Basics of LabVIEW software
- How to create VI?
- How to create sub VI?

Exercises

1. Creating a VI using Numeric Functions
2. Finding area of the triangle
3. Creating half adder.
4. Creating Full Adder using sub VI

Afternoon session

Contents

- Debugging Techniques
- Loops
- Structures
- Variables

Exercises

- Finding even or odd no.
- Fibonacci series.
- Finding Factorial.
- Local variable parallel loop control.
- Global variable VI control.

Day-2:

Morning Session

Contents

- Arrays
- Clusters
- Strings
- Wave form Graphs and Charts

Exercises

- Array functions
- Creating of array using for loop
- Cluster functions
- String operations
- Simulation of graphs, Using random numbers

Afternoon session

Contents

- File I/O's
- Formula node
- Expression node
- Property node
- Invoke node
- Architectures

Exercises

- Expressions execution using formula node and expression node
- Writing and reading binary, text, measurement files
- Weighing machine using State machine

Day-3:

Contents

MULTISIM

- Introduction.
- Multisim User Interface.

- Design a circuit
- Transient Analysis

A Three day workshop on AUTOCAD

Report

Name of the program : A Three day workshop on AUTOCAD
Duration of the program : 3/12/2018-5/12/2018
Resource person details : Mr.Venu gopal reddy,Trainer,APITA

Department of the Mechanical Engineering had organized Three day workshop on AUTODESK-AUTOCAD from 3 december to 5 december 2018.Mr.venugopal reddy ,Trainer ,APITA has attended to this event as resource person and conducted very informative session to the students.Mr.Srinivas acted as a convener to this event. The workshop aims to provide adequate working to understand the various steps involved in the 2D/3D designing, drafting and planning techniques that involves within a construction project. AutoCAD is a computer-aided drafting software program used to create blueprints for buildings, bridges, and computer chips, among other things. From Architects, Designers to Engineers and everyone who are into creating designs will be in need of a design tool that would make their work easy. Gone are the days where designers used paper to draft their designs, with the advent of complex structures and designs, it became extremely difficult to use paper to visualize their ideas. AutoCAD 2D software provides an efficient solution for this, helping enthusiasts to visualize their ideas and give life to them. With powerful functionalities, This workshop focuses from Basics concepts in the field of designing and increases the imagination power of the students in 2D designing. It covers the topics of introduction of 3D design, drafting and dimensioning, presenting design sheet and in the final work of project.In the last day of session Mr.Srinivas and some of the staff members shared their views on this program.
