

7.2: Best Practices

7.2.1: Describe two best practices successfully implemented by the Institution

7.2.1: Best Practices-1

***Title of the Practice: Student Centric
Pedagogy with Teaching Learning Methods***

BEST PRACTICE-1

Title of the Practice: Student Centric Pedagogy with Teaching Learning Methods

KCIT is following Outcome-Based Education (OBE), a student-centric teaching and learning methodology in which the course delivery, assessment are planned to achieve the stated objectives and outcomes. It focuses on measuring student performance i.e. outcomes at different levels. Blended learning environment is created in the institute which promotes student-centered learning in an innovative and effective manner. In addition, by providing good control over their learning, blended learning also helps in improving critical thinking. It gives students more autonomy to choose their learning practices. Moreover, the student is made aware of their learning goals in each course and discipline. The student at KCIT finds supportive faculty where he/she can connect and feel at home and moulded into a global citizen.

The Krishna Chaitanya Institute of Technology and Sciences (KCIT) practices a teaching methodology which focuses on imparting education through a student centric approach.

Experiential learning is used to improve students entrepreneurial and employability skills. Periodic and timely industrial visits are planned. Every lab or workshop has the right layout design and is kept up to date in accordance with present technology and academic regulation

Participative learning is Use power point presentations, Seminars, workshops, technical Quiz and special lectures. Group discussions and role plays are held as a part of activity-based learning. The Wi-Fi facility in the campus ensure everyone has access to all of the expert lectures on the resources for online learning.

Problem Solving Methodologies are processes through which a situation or an issue may be analyzed, and suggestive solutions are implemented by the assignments and quiz, hands on training programs, project based learning. Institute conducts tutorial classes for subjects with numerical problems to improve their problem solving skills.

7.2.1: Best Practices-2

Title of the Practice: Empower the rural youth through imparting training Programs.

BEST PRACTICE-2

Title of the Practice: Empower the rural youth through imparting training Programs.

- Community Service Projects
- To focus on learning outcomes of students from rural background.
- To train as Graduates suitable to industry/entrepreneurship/research
- To ensure Continuous Quality Improvement, Identifying suitable students from these rural mandals.
- Training them on advanced courses like .Net, Java Script, Simulation, Ansys, MATLAB, GIS & CAD.
- Promote activities for all round development of students through the practice of Yoga.
- Conducting the educational camps and motivating the youth to pursue higher studies

❖ COMMUNITY SERVICE PROJECTS:

Our college strongly believes in giving back to the community. To fulfill this commitment, various community service projects are undertaken throughout the year. These projects aim to address social issues, such as literacy, environmental awareness, healthcare, and rural development. By engaging students in these projects, our college instills a sense of empathy, social responsibility, and leadership skills in the next generation.
