Rain and Waste water outlet pipes, A-Black

1. Efficient roof-top rain water management system with harvesting ditches to improve ground water recharge.
2. Laboratories waste water is very small in quantity; hence released after diluting.
3. RO waste water is used for gardening after clarifying it.
4. Kitchen and food waste water is used for cattle feeding.
5. The excess wastewater will be directed into a dedicated drain passing near by the campus.
